“GET ON BOARD WITH RAIL SAFETY” ANIMATION CONTEST Official Rules

Safety Rules First

1. Safety during this project is of highest importance. Operation Lifesaver (OL) and its corporate and community partners take no responsibility and assume no liability for any omissions, acts or damages that may result from the preparation of materials for submission to this contest. **OL stresses that participants must produce their animation under the direct supervision of a responsible adult (herein known as the “Champion”) and avoid potentially dangerous situations in its preparation that could put the young animator or the public at risk.**
2. Railway tracks, yards, bridges and equipment are private property and pose a danger to members of the public — participants **must not** trespass on railway property in the preparation of their animation. The following safety rules must be followed. Violation of these rules will lead to immediate disqualification from this contest:
 - To discourage trespassing, you must prepare your animation from home or school, using props, models or sketches to show trains, tracks or other railway equipment such as warning signals and devices, etc.
 - You must not get closer than 15 metres from railway tracks or equipment such as locomotives and rail cars, in preparing your animation.

Description of the Contest

This contest challenges youth to create a short (max 1 minute) animated video (i.e. using hand-drawn, stop-motion, 2D or 3D animation) that emphasizes one of the following rail safety messages:

- Never use tracks as a path or a shortcut
- Don't hang out near tracks or on train equipment
- Only cross tracks at designated crossings
- Always obey railway warning signs and signals
- Leave one ear out when wearing headphones near tracks
